

The IRC was hard at work this month helping the international community with different issues and sponsorship. Some members around the world are looking for sponsors to help them work the steps. If anyone is willing to participate please let me know. We have helped members in the countries of Namibia, Belarus, and Finland in June navigate the process of starting groups in their countries, and filling out the ISO form to be recognized as official GA meetings. Thought not all have completed this process I am in touch with them helping as we go.

One positive report I would like to say is that we have a member from Hungary who requested to join the IRC, he does meet the requirements of being on a committee therefore we are in the process of welcoming him. Looking forward to July ...
