

Chronological History Committee

Mission Statement To write the history of Gamblers Anonymous.

Progress has been slow.

We are aiming to produce a book with :-

i) The chronological history (start dates for GA in different states and countries, lists of senior office bearers (chair BoT and BoR, IES etc), national conference details and significant dates in our history. Much of this work was done by Steve R for the 50th anniversary. There are some gaps and some errors that need to be corrected).

ii) The broader history of the fellowship. This is likely to include some writings (for example, Jim's Story) from previous GA publications.

iii) The development of GA philosophy and spirituality.

This may end up as one book or we may split it into two. We are keeping our options open as the book progresses.
