

MISSION STATEMENT. To write the history of Gamblers Anonymous.

REPORT. As a starting point, we are using the book Preserving our Past, for the Future which was written for the 50th anniversary in 2007. The book has 532 pages and a wealth of information. Unfortunately there are errors. We believe most are in the “general history” section.

We are currently trying to confirm details about the first meeting in each state. Responses from trustees are slow. Hopefully it is because they are checking details. We are willing to follow up if the trustees prefer us to contact longer-term members directly (with permission from the longer-term members).

We are sorting documents in the ISO archives (23 boxes filled randomly). We need to sort them into date order before we can ascertain if they are relevant.

We are progressing but slowly.
