

Gamblers Anonymous Promise Committee Report

The Gamblers Anonymous Promise Committee was formed with the goal of developing and creating the Gamblers Anonymous Promises. Twelve Trustees volunteered to participate in this important committee work, bringing their experience, ideas, and commitment to help move this project forward.

Since the committee began, we have continued to meet regularly through Zoom, as well as through live meetings. To date, we have held **16 Zoom and live meetings this year**, and we are making steady progress in our work.

While the committee originally had 12 Trustees volunteer, attendance at our meetings has remained consistent at approximately six Trustees. In an effort to encourage greater participation, we changed our regular meeting night from Friday to Monday. Unfortunately, this change has not resulted in increased attendance. Nevertheless, those who have continued to participate have remained dedicated to the committee and to the important work of developing the Promises.

Over the past couple of years, the committee has worked together to discuss, develop, review, and make improvements to the Promises. We recognize that creating something meaningful for Gamblers Anonymous requires thoughtful discussion and consideration, and we are committed to taking the time necessary to do this work properly.

We are grateful to the Trustees who have remained involved and dedicated throughout this process. Their continued commitment has allowed the committee to move forward despite the challenges of attendance and scheduling.

The Promise Committee looks forward to continuing this important work and appreciates the support and participation of the Trustees of Gamblers Anonymous.

Respectfully Submitted,
Barb L., Trustee Area 8E
Chair, GA Promise Committee
