

**Abuse & Harassment Pamphlet
Committee Report
June 2017**

Since Cherry Hill, the committee has not met. Prior to doing that, it was necessary to get all information from the Board of Regents regarding the circumstances of the publication's removal as approved literature. This required a request from the Board of Regents to forward that material to the committee.

There were only a few days from the end of the meeting until the agenda for the May meeting was set. We did not make that deadline, but it was part of the June agenda. The request was approved and the material was sent to the committee chair in hard copy only.

The committee will meet during July to start the initial discussion of the structure and objectives of the revised pamphlet. There is no way to ascertain the timeline of this committee's work and an expected document to be presented to the Board of Trustees for approval.

The committee is currently closed to new members.

David M. – Committee Chair
