

Blue Book Revision Committee Report

February 2019

The Blue Book Revision Committee is on track to submit the document for approval at the Spring 2019 Conference in Louisville. The document will be up on the Trustee Website in March.

An agenda item that the document be accepted is being drafted.

Members of the committee are planning to attend the Louisville Conference and to meet with interested Trustees prior to the BOT meeting. We have been told that there will be a space available to us on Wednesday evening, prior to the start of the BOT meeting.

We are very happy with the collaborative nature of the work and have spent untold hours in discussion and decision by consensus. The diversity among the members of the committee has resulted in a rich and vibrant work.

Respectfully,

The Blue Book Revision Committee
