

Blue Book Revision Committee Report

September 2019

The Committee met to go over suggested revisions and changes that were brought up at the Spring BOT meeting and that were submitted by Trustees following the meeting. Several changes have been made and the committee is set to meet again to evaluate the product. The committee is confident that the final revision will be ready for submission to the BOT for the Spring 2020 BOT meeting.

Respectfully submitted,

Jeannie B.

Blue Book Revision Committee Chair
