

Defining the Relationship Between GA and Gam-Anon August 2019 Committee Monthly Report

The August meeting was very good. Participation from all members was received. Honesty was shared, and differences in opinions were listened to. This issue has been ongoing for 29 years. But everyone agreed that we need to get this issue resolved for the betterment of GA "NOW" and not have it go on any longer. Some of the members would like Gam-Anon to be a coordinating organization and others believe this is against our Unity Step 6 and don't want this to happen. One member would like to have the same wording that Gam-Anon uses in their literature, as the result of a Gam-Anon resolution in 2016, regarding their relationship with Gamblers Anonymous, in Gamblers Anonymous literature. We are continuing to work together to define our relationship with Gam-Anon. We all agreed that our relationship should not be a comingling relationship.
