The committee met on December 9, 2019 by telephone. Five members attended. The committee has commenced writing the text of the handbook. Our main concern at this juncture is how much text to write to support the sections and subsections agreed upon at previous meetings. The committee agreed that we would review each other's work as it becomes available and communicate our suggestions via email. Our next meeting will be on January 13, 2019.

Respectfully submitted:
