

The International relations committee had a slow month. The world pandemic has taken priority over everything else. We are continuing to be in touch with Austria and Latvia who both are trying to get the approval of the BOT to translate our literature and make it GA approved literature. Though Latvia's agenda item was on the Seattle agenda, now that we have had the conference canceled we are looking to submit them both for San Diego in October.

One other topic we were discussing with Argentina and South Africa is the topic of having remote meetings on line due to the situation world wide. I told them it was imperative to not use the world Gamblers anonymous to identify them. I also suggested the phone meeting we have on Wednesdays and that it has be expanded to a daily meeting with a Spanish version kicking off in April.

Hope all of us be safe and see everyone in San Diego.
