

The month of February started off by helping the membership of Iran by setting up a Zoom “Introduction to the steps” workshop early in the month. I was able to discuss the steps through an interpreter and answer many questions about GA, formats, meeting procedures etc. It was very well received. Now I have been asked to submit an agenda item, permission to translate the combo book to Farsi for them.

Next , the Irc delt with Kazakhstan, they had put together a couple of regular groups and wanted to be listed on the ISO website. I had them fill out our form and they were interested in getting Russian literature. I explained they could contact Moscow regarding this.

Portugal and Romania are both working on their translation and I am waiting for them to officially ask me to submit agenda items for the permission to translate into their language. I have a couple more weeks to do so and waiting to see what happens. I sent them both links to the explanation and procedure of translation from our trustee website. I am confident they will be following the procedure.

Ukraine has also added a new group to their list and wanted us to update the website. With the help of Jason from ISO, we were able to explain and receive a new group information form for this new group and everything is moving forward correctly.

We have not done much more as a committee this month, hopefully we could push thru our translation agenda items at the trustee meeting in May,

Thank you for letting me be of service.
