

## **Video Meeting Format Committee February 2017**

---

The committee did not meet this month, as the problem that has blocked our progress has not yet been resolved. This issue is centered on the mechanics of filming the video that we wish to roll out, without cost to the Fellowship. The committee had come up with some ideas on how to accomplish this, but the reality of securing a solution along those lines has been evasive.

We will be meeting during the month of March to attempt to come up with an alternative means to accomplish the filming and staffing the video with non-GA members (so as not to breach anyone's anonymity).

David M. – Committee Chair
