

Trustee Website Report March 2017

The Cherry Hill agenda was completed and posted to the Trustee website, 5 days in advance of the 3/16/17 deadline.

The absentee ballot was posted shortly after that. With roughly 3 weeks until the deadline for submission of the only absentee ballots, there are only 4 Trustees who have sent in their ballots.

Committee reports for the Trustee meeting are due in roughly 2 weeks. So far, none of the 21 committees have submitted any report.

In the Download Center, there are 3 attachments that are audio files. These can be downloaded very easily; however, they are not going to be available in print format for the Cherry Hill agenda. Please take the time to download each one and review it carefully, in advance of your decisions on whether or not to accept these items when they come up for their respective votes.

After the Cherry Hill meeting, the Life-Line Bulletin link that refers people to the ISO website, will be removed. There is virtually no traffic with that link.

No new features were considered for addition to the website. It is hoped that a discussion of what the future of the website is, will bring about some additional ideas for such features to be implemented before Ontario.
